Welcome to The City of Pearls

4th National Conference of Association of Obstetric Anaesthesia
1st Joint AOA – OASAO (Obstetric Anaesthesia Society Asia Oceania) Meet

AOA - 2011 CME, Hyderabad, Final Announcement

THEME: RISK MANAGEMENT IN OBSTETRIC ANAESTHESIA

on 16th, 17th & 18th September 2011

Jointly Organized by

PRERNA ANAESTHESIA & CRITICAL CARE SERVICES

and

FERNANDEZ HOSPITAL
Healthcare for Women & the New Born
HYDERABAD

Accredited for up to 24 CME Credit Hours

★ A ★
Dear friends and colleagues

Greetings.

On behalf of the organizing Committee, we take great pleasure in informing you that the final CME Programme and workshop details for the 4th National Conference of AOA and 1st Joint AOA-OASAO Meet from 16th September to 18th September 2011 at Marriott Convention Centre, Hyderabad, is ready. A galaxy of International, Asian and National experts will be there to share their knowledge and wisdom with the participants.

The Scientific Committee has laid out an exciting and varied Scientific Programme that includes plenary and thematic sessions, presentation of research papers, panel discussions, controversies and meets the expert sessions. The programme has been evolved in collaboration with local, national and international experts and is very creative. As you are aware, the theme for the congress is ‘Risk management in Obstetric Anaesthesia’ and major emphasis is woven around ‘reducing maternal mortality’. It encompasses all the important issues related to Safe Obstetric Anaesthetic practice both in developing and developed nations.

We are confident that the 2011 AOA - OASAO Congress will provide a rich educational forum with multiple programs, skills workshops and activities, and will enhance your practice of Obstetric anaesthesia. The Andhra Pradesh state medical council has been kind enough to award credits for the CME and the workshops.

The faculty for the conference and workshops as mentioned earlier, is a conglomerate of who’s who in Obstetric Anaesthesia from across the globe representing internationally renowned Societies of Obstetric Anaesthesia like OASAO (Australia, Asia), SOAP (USA), OAA (UK) and our own national body, AOA, in addition to our renowned national and international guest speakers.

The meeting will reflect an inter-professional and international perspective across all phases of training and practice in this sub-specialty of Obstetric anaesthesia. We invite everyone who is directly or indirectly involved in Obstetric anaesthetic practice to attend this Congress. We are sure that you will benefit utmost in the day to day management of your patients.

Hyderabad, the capital of Andhra Pradesh, is not only the historical and trading hub of southern India, but also one of the most prominent places on the tourist map of India. This historical city is dotted with many architectural marvels that have been attracting tourists in hordes. Your trip to this ‘pearl city’ will be a truly memorable experience.

We look forward to meeting you in Hyderabad in September 2011 and hope this meeting will be a memorable experience for all of you, as it will be for us.

Org. Chairman
Dr.A.Rampapa Rao

Org. Secretary
Dr.Sunil T Pandya
ASSOCIATION OF OBSTETRIC ANAESTHESIOLOGISTS ... INDIA (AOA)

DR. SUNANDA GUPTA
immediate Past and Founder President, AOA
UDAIPUR

DR. ANJAN TRIKHA
President, AOA
NEW DELHI

DR. SUNIL T. PANDYA
Honorary Secretary , AOA
HYDERABAD

DR. LALIT KUMAR RAIGER
Treasurer, AOA
UDAIPUR

DR. KETAN S. PARikh
Executive committee member, AOA
MUMBAI

DR. NAVEEN MALHOTRA
Executive committee member, AOA
HARYANA

DR. PRITHWIS BHATTACHARYA
Vice President , AOA
SHILLONG

DR. ANJU GREWAL
Joint Secretary, AOA
LUDHIANA

DR. KAJAL SHARMA
Executive committee member, AOA
CHANDIGARH

DR. SUBRAMANYAM, M
Executive committee member, AOA
HYDERABAD

OBSTETRIC ANAESTHESIA SOCIETY ... ASIA OCEANIA (OASAO)

DR. ALEX T. SIA
OASAO President, Asia

DR. STEPHEN GATT
OASAO President, Oceania

DR. SHUSEE VISALYAPUTRA
Secretary, OASAO

DR. WARWICK NGAN KEE
Treasurer, OASAO

DR. CHAN YOO KUEN
Executive committee member, OASAO

DR. CONNIE L. CRUZ
Executive committee member, OASAO

ADVANCED OBSTETRIC ANALGESIA
Venue: Gandhi Medical College
WS coordinators: Dr Shanti.Y and Dr Sailaja.K

WORKSHOP PROGRAMME

| Station Rotation I: | Alternate methods / PCIA / PC-IVA |
| Station Rotation II: | CNB: Drugs, Dosages, Regimes |
| Station Rotation III: | Myths and Controversies Explained |
| Station Rotation IV: | Trouble Shooting |
| Station Rotation V: | Risk Management strategies |

PANEL DISCUSSION: Tricky patient & Troubling catheter!

POST TEST AND AWARDING CERTIFICATES

LEARNING OBJECTIVES

- Understand why parturients need pain relief in labour
- Learn about various non-pharmacological methods of pain relief in labour
- Understand various neuraxial techniques for Labour analgesia
- Learn step by step approach about initiating and maintaining a CNB for Labour
- Gain insight into trouble shooting and risk management strategies
- Tackling a parturient with a difficult back
- Starting Labour analgesia services at your place

WHO SHOULD ATTEND? Anaesthesiologists, Obstetricians, Post graduates, Midwives

Labour analgesia: An overview
Pain relief in Labour: Practice in the west
Pain relief in Labour: Practice as an Individual
Video Demonstration I: CSEA for Labour
Video Demonstration II: EA for Labour

WORKSHOP PROGRAMME

PRE-CME Workshop: A: 16th September

WS coordinators: Dr Shanti.Y and Dr Sailaja.K
Venue: Gandhi Medical College

LEARNING OBJECTIVES

- Understand why parturients need pain relief in labour
- Learn about various non-pharmacological methods of pain relief in labour
- Understand various neuraxial techniques for Labour analgesia
- Learn step by step approach about initiating and maintaining a CNB for Labour
- Gain insight into trouble shooting and risk management strategies
- Tackling a parturient with a difficult back
- Starting Labour analgesia services at your place

POST TEST AND AWARDING CERTIFICATES

WHO SHOULD ATTEND? Anaesthesiologists, Obstetricians, Post graduates, Midwives

Station Rotation I: Alternate methods / PCIA / PC-IVA
Station Rotation II: CNB: Drugs, Dosages, Regimes
Station Rotation III: Myths and Controversies Explained
Station Rotation IV: Trouble Shooting
Station Rotation V: Risk Management strategies

PANEL DISCUSSION: Tricky patient & Troubling catheter!

POST TEST AND AWARDING CERTIFICATES
CRITICAL INCIDENTS IN OBSTETRIC ANAESTHESIA
Venue: Gandhi Medical College

WS coordinators: Dr Sujanith. T / Dr Dayal Singh.T.P.

WORKSHOP PROGRAMME

Critical Incidents in Obstetric anaesthesia: An overview
Avoiding Airway mishaps
Avoiding mishaps in Regional anaesthesia
Cardiovascular mishaps in Obstetric anaesthesia

STATION ROTATION
Substation IA: Difficult airway & Supraglottic Devices
Substation IB: Jet Ventilation
Substation IC: Cricothyrotomy & PCT
Substation ID: FOB / Video Laryngoscopy
Simulator based Case scenarios
Substation IIA: CI in regional anaesthesia
Substation IIB: Machine and Drug errors & Anaphylaxis
Substation IIC: Refractory hypotension & arrhythmias

PANEL DISCUSSION: Handling death of a parturient on table

LEARNING OBJECTIVES

WHO SHOULD ATTEND?
Anaesthesiologists, General physicians, Emergency physicians, Obstetricians, Post graduates, Critical care nurses, Midwives, EMTs

- Difficult Airway in Obstetrics: Drills and Practice
- Learn and practice: ILMA / C-Trach LMA / PLMA / I-Gel / Combitube and Laryngeal tube
- Learn and practice: Retromolar intubation / Fiber optic Laryngoscopy
- Learn and Practice: Surgical Crico-thyrotomy, PCT, JV, Retrograde intubation
- Learn and Understand Interactive Webcast on Machine and Drug Errors
- Understand and Manage Refractory Hypoxemia, Hypotension and Arrhythmias
- Understanding and managing complications of CNB
Critical Care in Obstetrics: An Overview

Major Obstetric Hemorrhage: Fluid and Blood Resuscitation

Sepsis in a parturient: Management Bundles

AKI in Obstetrics: Optimizing and Initiating RRT

Eclampsia and Hypertensive Crisis

Neonatal Resuscitation

Station Rotation I: Major Obstetric Hemorrhage

Station Rotation II: Sepsis in a parturient

Station Rotation III: AKI and RRT

Station Rotation IV: Eclampsia & Hypertensive Crisis

Station Rotation V: Neonatal Resuscitation

LEARNING OBJECTIVES

Understand and practice principles of resuscitation in major obstetric hemorrhage & sepsis

Gain insight into usage of various uterotonics, various methods of hemostasis, using TEG

Skills Station: Learn & Practice Central Venous cannulation

Skills Station: Learn & Practice Setting up of a Rapid infusion and Warming devices

Understand prevention of AKI in a parturient and initiating RRT - PD, CVVH, SLED

Learn and practice Eclampsia Drill

Hands-on Neonatal resuscitation as per NALS / NRP Guidelines
Pre-CME Workshop: D: 16th September

Venue: Emergency Medicine Research Institute (EMRI)

WS coordinators: Dr Raja Narsing Rao. H.V / Dr Anand Monickam

Epidemiology - Pregnancy and Trauma

ACLS in Pregnancy: An overview

Trauma in Obstetrics: An overview

Perimortem Cesarean Section

STATION ROTATION

Station Rotation I: BLS, ACLS Simulation and Practice

IA: BLS & ACLS Practice session (AHA 2010 Guidelines)

IB: Peri-arrest arrhythmias - Simulator based Practice

IC: Arrest in Pregnancy / Perimortem CS

Station Rotation II: Trauma in Obstetrics

IIA: Trauma in Pregnancy – Management Principles

IIB: Maternal & Fetal monitoring - FAST in Pregnancy

POST TEST AND AWARDING CERTIFICATES

LEARNING OBJECTIVES

WHO SHOULD ATTEND? Anaesthesiologists, General physicians, Emergency physicians, Obstetricians, Post graduates, Critical care nurses, Midwives, EMTs

- Pre Arrest clinical Scenario in a Parturient
- Post Arrest Resuscitation in a Parturient
- Perimortem Cesarean Section
- Arrhythmia recognition and Management
- Understand basic principles of triage in trauma in a pregnant patient, ATLS surveys
- Hands-on: Ultra Sound – FAST
- Hands-on: IO access, Needle Thoracostomy
ULTRASOUND IN ANAESTHESIA AND CRITICAL CARE
Venue: Care Hospital, Banjara Hills

WS coordinators: Dr Gopal. T.V.S / Dr Sadat Ali Khan

WORKSHOP PROGRAMME

Basics of US for the Anaesthesiologists

US Guidance for CVC and Arterial catheter access

US Guided abdominal Blocks for Obstetric patients

US Guided Neuraxial Blocks in Parturients

STATION ROTATION

Station I: Machine Controls and Image optimization

Station II: IJV, SCV, FV and Arterial Imaging in Fore arm

Station III: Abdominal wall Sonoanatomy

Station IV: Lumbar Spine Sonoanatomy

Phantom Target practice with Ultra sound and Needles On Blue Phantom and Water Spine phantom

LEARNING OBJECTIVES

WHO SHOULD ATTEND? Anaesthesiologists, Emergency Physicians, Postgraduates

- Understanding basic working principles of Ultrasound for anaesthetists
- Understanding the clinical applications of US in anaesthesia and critical care
- Gain insight into usage of US for ICU procedures (Vascular access)
- Learn visualization of Neuraxial anatomy and various abdominal blocks in parturients
- Practice on Blue phantom and Water spine phantom using US and needles
- Understand maintenance, care and sterilization principles of Ultra Sound probes
MEDICAL ETHICS AND CLINICAL RESEARCH
Venue: Nizams Institute of Medical Sciences (NIMS)
WS coordinators: Dr Ramesh Kumar. T / Dr. Gopinath. R

WORKSHOP PROGRAMME

| Medical Ethics with an introduction to Ethics |
| Introduction to ICH - GCP |
| Fraud and Misconduct |
| Roles and Responsibilities of IEC |
| Adverse Drug Reactions |
| Roles and Responsibilities of Investigator |
| Informed Consent |
| Data Safety Monitoring |
| Audit and Inspections of Clinical Trials |
| Responsibilities of Sponsors |
| The Humane Aspects of Ethics in Clinical Research |
| Open House Discussion |

LEARNING OBJECTIVES

WHO SHOULD ATTEND? Anaesthesiologists, Obstetricians, Post graduates, Institutional Heads, Clinicians from any discipline

- Learn principles of ICH-GCP and humane aspects of ethics in clinical research
- Understand the roles and responsibility of IEC in fraud and misconduct
- Understand the roles and responsibility of Principal Investigator
- Importance of Patient information sheet and Informed Consent and Data Safety
- Ability to audit & inspect clinical trials
- Ability to understand issues related to sponsors and their responsibilities
